

StandardPasswordChecker
::checkStrength

```
graph LR; A[StandardPasswordChecker::checkStrength] --> B[Terminal::printError]; A --> C[Terminal::printSuccess];
```

The diagram illustrates a function call from a class method to two different output functions. A gray box on the left contains the text 'StandardPasswordChecker' followed by '::checkStrength' on a new line. Two blue arrows originate from the right side of this box. The top arrow points to a white box containing 'Terminal::printError'. The bottom arrow points to a white box containing 'Terminal::printSuccess'.

Terminal::printError

Terminal::printSuccess
